

Hello

I'm Chandler Renteria

W: crenteria.slccwebdev.com

P: (702) 606-5106

E: chandler.renteria@gmail.com

Personal Bio

I first found coding when my brother introduced me to python in 2019. When Covid-19 caused worldwide lockdowns in April my business took a big hit, losing about 80% of total revenue in a month. We would never recover financially from COVID as a business. So I again enrolled in Salt Lake Community College studying web development and design. With my background in python and teaching myself coding concepts I was able to excel in everything from HTML to PHP and MySQL. My internship will conclude in December of 2020.

Now, I am looking for a full time opportunity to code professionally. My goal is work on a team that values self-improvement, teamwork, and success. I like winning and want to be with a winning team. I understand that hiring a junior developer is an investment, and to stay in business you need a return on that investment- I feel confident I can provide that return if given the tools to succeed.

Technical Skills

Wordpress | JavaScript | CSS | HTML 5 | Python 3 | Photoshop

Bootstrap | Matplotlib | Git | Pandas | JQuery | PHP | MySQL

Education

Salt Lake City Community College - *Salt Lake City, UT*

Emphasis: Web Development and Design

Centennial High School - *Las Vegas, NV*

Diploma

Projects

Portfolio Website - *HTML | CSS | Javascript | PHP*

- Utilized a mix of Bootstrap and custom HTML/CSS/JS to create a beautiful responsive website.
- Used Javascript to create interactive features such as the filter feature on my projects.
- Utilized third party apps to help build the website such as fontawesome.com and tinypng.com
- Forms Handled using PHP.

Cleanbnb Company Website - *HTML | CSS | Javascript*

- Utilized Bootstrap, HTML, CSS, and Javascript to build a comprehensive and responsive solution for a local small business.
- Worked off a design to build an accurate website.
- Added functionality for current clients to automate tasks previously performed by people.
- Created and serviced a database using PHP and MySQL.

Internship (CURRENT)- *HTML | CSS | Javascript*

- Utilized Bootstrap, HTML, CSS, and Javascript to build a comprehensive and responsive solution for a local small business.
- Worked directly with Clients to ensure needs were met.
- Added functionality for current clients to automate tasks previously performed by people.
- Created and serviced a database using PHP and MySQL
